

YUSEN Air & Sea Logistics (Shenzhen) Co. Ltd

ANNOUNCEMENT

Subject: Opening of Meilin Logistic Center

After series of market researches and supported by our valuable customers, Yusen Air & Sea Logistics (Shenzhen), YALSZX decided to set up another logistic warehouse in Shenzhen, China. It is inside the South-China Int'l Logistics Center (SILC) of Huanan Logistic Park (华南物流园), Meilin (梅林) Shenzhen.

In Shenzhen, YALSZX has warehouse facility in Futian Free Trade Zone (FFTZ). It is a bonded warehouse for import, export, transit & other value-added logistic functions. The warehouse is supporting Pearl Delta Area's importers & exporters. However, FFTZ cannot obtain the new "VAT Tax Rebate after warehouse-in (入仓退税)" function from Central Government.

In response to valuable customers' need in this area, to set up Meilin Logistic Center is our option. SILC is an Export Customs Supervised warehouse. Central Government had granted her "VAT Tax Rebate" function.

The warehouse is located at the main hub of freeways & centre of Shenzhen. It is 6 km away from Huanggang/Hong Kong border, 25 km from Yantian Port, 20 km from Shekou port, and only 30 km from Baoan airport.

The Meilin Logistic Center provides following services:

- Export Container Freight Station (CFS)
- IPO Sourcing Hub for overseas buyers
- Regional Distribution Center to HK & overseas
- Buyer Consolidation Center
- Export Cargo Storage
- Other value-added services

The Meilin Logistic Center will be fully operational on 1 September 2009.
