

Yusen Air & Sea Service (China) Ltd

ANNOUNCEMENT

Subject : Opening of Chengdu Delegate Office

After a series of market researches and on-site visits, the Company decided to set up a delegate office in Chengdu (成都), China. In the past few years, YUSEN has been developing a lot of branches and offices in coastal cities. Nowadays, YUSEN China network can cover all major coastal gateways. However, we believe that we still have rooms for "Going West" for further developing some inland gateway offices.

Because of the continuous development and upgrading of infra-structure in China, some industries and business are moving to the Western part of China for better business opportunities with competitive costing conditions.

As a global logistics provider, we believe that we need to keep the same pace with that of our customers and delivery of our quality supply chain solutions to them. With the above mission, the Company is striving for exploring business opportunities continuously in the past few years. YUSEN has already set up delegate office in Xian (SIA)-Northwest gateway and Chongqing (CKG) –Southwest gateway respectively in the past few years.

In order to have a more comprehensive network coverage in the western part of China, the Company decided to set up a delegate office in Chengdu under the assistance of local agent as well as YAS/EAR.

The delegate office will be commenced for its liaison functional activities as from November 1, 2007. Since the nature of office is an non-operational branch, all physical operations including consolidation and break bulk operations will still be handled by our appointed agent. However, the office will provide customer service back-up, communication with overseas agent as well as local contact with shippers and consignees.

Geography of Chengdu

Chengdu is situated in the middle of Sichuan Province, the West Sichuan Plain of China. It is the capital of Sichuan Province. Sichuan Province is one of the largest provinces in China. The population of Chengdu totals 10.13 million (year of 2000), ranking the fourth after Beijing, Shanghai, Chongqing in China.

Chengdu is not only China's important industrial base, but also a well-know historical and cultural city in southwest china, with a history of 2,500 years

Nature of Industry in Chengdu

Chengdu is an important industrial base in the West. Now, Chengdu has formed a comprehensive industry system that is mainly composed of electronic information, medicine, foods and machinery and has certain strength. A lot of fortune 500 companies set up their plants in Chengdu.

Its main industries comprise machinery, chemicals, metallurgy, foodstuff, textiles, and especially measuring and cutting tools, airplanes, chemical equipment, analytical instruments, TV sets, computers, steel tubes, metal products, fertilizer, aluminum processing, electrical machines, wood-processing and etc. which hold an important position in China.

Transport Hub of Southwest Region

Chengdu is a railroad hub in South-west China, and has convenient highway and air transport connecting to major parts of China.

For air transport, Chengdu operates international/regional direct flights to and from AMS (KL), BKK (TG), KTM (CA), MFM (NX), HKG (CA/KA/OU/3U), ICN (CA/OZ), SIN (CA/MI) and NRT (CA). Other than direct flights, CA and CZ on-line and interline service can also be available via CAN and PEK gateways.

For sea transport, Chengdu operates regular scheduled freight block trains for carriage of CY movement to and from Shanghai, Shenzhen and Guangzhou ports. Other than the rail mode, CY movements are also carried by river feeder mode to Shanghai port for export.
